WHOLESALE
PRICE LIST

Spring 1943

February 17, 1943

TERMS AND CONDITIONS OF SALE

The prices named in this list cancel all previous lists. Being based on current market conditions, they are subject to change without notice and to depletion of stock. All sales are made with the understanding that we shall not be liable in event of crop loss or of damage from other causes over which we have no control.

APPLICATION OF PRICES:—The prices quoted in this list are trade prices and apply on wholesale quantities only. All orders should call for ten or multiples of ten of a variety and size. While we prefer not to break bunches of ten, in general five will be furnished at the rate per 10; 30 or more at the rate per 100, 250 or more at the rate per 1000 where such a rate is published.

Small Quantities:—Less than five of a variety and size is not wholesale, but, for the convenience of our wholesale customers, such orders will be filled at a premium of 5c per plant over the rate per ten with the exception of Evergreens and Deciduous Trees. On Deciduous Trees the premium will be 10% of the rate per ten but not less than 10c per plant.

Special Marking:—All stock selected and labeled by the customer at the Nursery will be subject to an additional charge in accordance with its value—listed prices will not necessarily govern.

TERMS OF PAYMENT:—2% discount for payment within 10 days of invoice date, due net first of second month following date of invoice. These terms are offered only where satisfactory credit arrangements have been made. All accounts not paid promptly on the due date draw interest at 6% from that date.

Cash Before Shipment:—A 3% discount will be allowed where cash in full to cover the cost of stock and packing is received before shipment, except that no discount will be allowed on orders amounting to less than \$5.00. Our experience with defaults on small balances necessitates all such balances being forwarded C. O. D. Be certain that you send enough money to cover the packing charges and avoid the comparatively heavy C. O. D. charges. Any overpayments will be refunded with the invoice.

C. O. D. Shipments:—Orders for C. O. D. shipment should be accompanied by cash for one third of the amount of the order to insure acceptance.

CLAIMS:—Claims, for any reason must be made in writing promptly upon receipt of the stock. We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted.

GRADES:—Our stock is all young, thrifty, and well grown, and is carefully dug and handled. All grades conform to the Standard Grades of the American Association of Nurserymen.

PACKING:—The prices in this list do not include packing. All orders for forwarding by freight or express, except car-load lots, are carefully packed in boxes or bales for which a charge is made sufficient to remunerate for cost of materials and time. No charge is made for loading in bulk in cars or on trucks, but all trucks should carry sufficient tarpaulins to properly cover the stock.

BOXING CHARGES:—Charges are made as low as possible for well made boxes, paper lined:

	12 feet	10 feet	8 feet	6 feet
30 by 30 inches	\$5.50	\$4.75	\$4.00	\$3.40
24 by 30 inches	5.00	4.25	3.75	3.15
24 by 24 inches	4.50	4.00	3.40	2.90
18 by 24 inches	4.00	3.40	3.00	2.50
18 by 18 inches		2.90	2.50	2.15
12 by 12 inches		2.10	1.75	1.45

Bales 35c and 50c to \$4.00 each depending on size.

TERMS AND CONDITIONS OF SALE — Continued

NON-WARRANTY AND LIABILITY:—We give no warranty, express or implied, as to the growth or productiveness of the Nursery Stock that we sell and we cannot be responsible in any way for results in transplanting. We exercise the greatest care to keep our varieties pure and true to name and hold ourselves in readiness to replace at any time, on proper proof, any Nursery Stock that may prove otherwise or to refund the amount paid, but it is mutually agreed that we shall at no time be liable for any amount greater than that originally paid for the Nursery Stock in question.

DIRECTIONS FOR SHIPPING:—In ordering, please give definite shipping instructions, especially advising as to whether we should ship by freight, express, or truck line. Where full instructions are not given, we ship as we think best serves your interests, but in no case do we assume responsibility for the stock after it has left our hands. The stock becomes the property of the purchaser when turned over to the transportation company, and the risk and cost of transportation belong to the customer.

While we use every means at our command to secure prompt delivery, WE ARE NOT LIABLE FOR DELAYS IN TRANSIT; OUR RESPONSIBILITY ENDS UPON DELIVERY IN GOOD ORDER TO THE CARRIER. Remedy for loss must lie between the buyer and the carrier, but we will gladly render any aid that we can.

NOTICE TO ILLINOIS CUSTOMERS

The regulations under the Illinois Retailers' Occupation Tax Law covering the exemption of sales for resale from the 2% Sales Tax require that in order to establish proof that purchases are for that purpose, we must keep on file Certificates of Purchase for Resale on all purchases made by Illinois customers on which we claim exemption from Sales Tax. Illinois customers who have not filed such a certificate with us are therefore requested to accompany their orders with a proper certificate showing their registration number. We must of necessity charge the 2% Sales Tax on the invoices of all customers who do not furnish us with such certificates.

TO THE TRADE

LOCATION AND SHIPPING FACILITIES:—Princeton is located in north-central Illinois 104 miles west of Chicago on the main line of the Burlington Railroad and on three concrete highways—U. S.-Illinois 6 and 34 and Illinois 26. Our office, packing sheds, and home farm are located just south of the city limits on South Main Street (Tiskilwa Road).

TRUCK DELIVERIES:—Several responsible freight truck lines operate through Princeton, with proper connections for transfers to many points, particularly in Illinois, Indiana, Iowa, and points east and north of the Chicago transfer. Rates in most instances are the same or nearly the same as local railroad freight rates.

Where the size of the shipment warrants, we are in a position to arrange for direct deliveries in bulk by truck at reasonable rates. Cost of deliveries by chartered trucks will be quoted on request.

Where customers wish to send their own trucks for bulk loading, it is advisable to give us three or four days advance notice so that we may have the stock ready when the truck arrives and avoid delay. Especially where the orders entail the digging of stock in the field, we cannot guarantee to fill truck orders the same day the truck arrives without such advance notice. Care should be taken that all trucks carry sufficient tarpaulins to properly cover and protect the stock, as we can accept no responsibility whatever for the condition of the stock after it leaves our hands.

FRUITS

Caliper:—It is intended that the caliper shall govern in the grading of fruit trees. Heights given are approximate only and represent the average height of most varieties, but some slow growing varieties may fall short of the heights specified.

APPLES

Our Apples have made up unusually heavy in caliper this year and we can furnish more of the heavier grades than usual.

	Per 10	Per 100
First Class, 11/16 to 7/8 inch, 4½ feet and up	\$ 3.20	\$ 28.00

DECIDUOUS TREES

The Shade and Ornamental Trees which we offer are young, thrifty, well rooted specimens which have been carefully trimmed and shaped. We dig fresh for each order.

All calipers are taken six inches above the crown.

ACER dasycarpum — Soft or Silver Maple 60-80 ft.

A large tree of rapid growth, by far the sturdiest of our rapid growing trees.

	Per 10	Per 100
8 to 10 feet, 1 to 1¼ inch caliper	\$ 6.50	\$ 60.00
1¼ to 1½ inch caliper	8.50	75.00
1½ to 1¾ inch caliper	10.00	90.00
1¾ to 2 inch caliper	12.50	110.00
2 to 2½ inch caliper	15.00	135.00
2½ to 3 inch caliper	19.00	175.00
3 to 3½ inch caliper	25.00	225.00
3½ to 4 inch caliper	35.00	

dasycarpum var. Skinner's Cut-leaved Maple 60-80 ft.

Very similar to the Wier's Cut-leaved Maple with more finely cut leaves.

6 to 8 feet	7.50	
8 to 10 feet, 1 to 1¼ inch caliper	10.00	
1½ to 2 inch caliper	15.00	
2 to 2½ inch caliper	20.00	

platanoides — Norway Maple 50-60 ft.

One of the best of the Maples. A sturdy tree with a broad rounded head, excellent for street and park planting.

6 to 8 feet	10.00	90.00
8 to 10 feet, 1 to 1½ inch caliper	12.50	115.00
1¼ to 1½ inch caliper	15.00	135.00
1½ to 1¾ inch caliper	19.00	175.00
1¾ to 2 inch caliper	22.50	200.00
2 to 2½ inch caliper	27.50	

platanoides Schwedleri — Schwedler Purple-leaved Maple

A type of the Norway Maple. The leaves are bright purplish-red when they first come out in the Spring, changing to a very dark green in the Summer. The trees offered are two years from transplanting and fairly well branched.

6 to 8 feet	18.50	170.00
8 to 10 feet, 1 to 1¼ inch caliper	22.50	
1¼ to 1½ inch caliper	26.00	

rubrum — Red or Scarlet Maple 50-60 ft.

An attractive round-headed tree with light gray bark and good foliage that turns a bright scarlet in the Fall.

5 to 6 feet	11.50	
6 to 8 feet	15.00	
1½ to 2 inch caliper	26.00	
2 to 2½ inch caliper	30.00	

saccharum — Hard or Sugar Maple 70-90 ft.

The native Sugar or Rock Maple, a tall sturdy tree with an upright oval head.

5 to 6 feet	8.00	70.00
6 to 8 feet	11.00	100.00
8 to 10 feet, 1 to 1¼ inch caliper	15.00	
1¼ to 1½ inch caliper	17.50	

AESCULUS glabra — Ohio Buckeye 30-40 ft.

A small native round-headed tree of the Horse-chestnut family.

3 to 4 feet	5.00	
4 to 5 feet	7.00	60.00
5 to 6 feet	9.50	
6 to 8 feet	12.50	

DECIDUOUS TREES — CONTINUED

Ash — see *Fraxinus*.**BETULA alba — European White Birch 30-40 ft.**

A handsome graceful tree with white bark.

	Per 10	Per 100
6 to 8 feet	7.00	
8 to 10 feet, 1 to 1¼ inch caliper	10.00	85.00
1¼ to 1½ inch caliper	11.50	100.00
1½ to 1¾ inch caliper	14.00	125.00
1¾ to 2 inch caliper	16.50	150.00
2 to 2½ inch caliper	19.00	175.00
2½ to 3 inch caliper	22.50	200.00

alba laciniata pendula — Cut-leaved Weeping Birch 30-40 ft.

6 to 8 feet, wrapped in moss	14.00	
6 to 8 feet, B&B	24.00	
8 to 10 feet, wrapped in moss	19.00	
8 to 10 feet, B&B	32.50	
1¼ to 1½ inch caliper, wrapped in moss	22.50	
1¼ to 1½ inch caliper, B&B	40.00	
1½ to 2 inch caliper, wrapped in moss	27.50	
1½ to 2 inch caliper, B&B	50.00	
2 to 2½ inch caliper, wrapped in moss	35.00	
2 to 2½ inch caliper, B&B	65.00	

Birch — see *Betula*.**CELTIS occidentalis — Hackberry 60-70 ft.**

A valuable tough-wooded native shade tree with a straight trunk and broadly rounded head.

5 to 6 feet	4.50	35.00
6 to 8 feet	6.00	50.00
8 to 10 feet, 1 to 1½ inch caliper	8.50	75.00
1½ to 2 inch caliper	12.50	110.00
2 to 2½ inch caliper	17.50	

CERCIS canadensis — Red-Bud or Judas Tree 20-25 ft.A good hardy strain grown from local seed. *Cercis canadensis* is one of the numerous plants which will not prove hardy when moved into this section of the country from the South. Here at Princeton we are on the northern limits of the native Red-Bud, and these plants will prove much harder than those grown from southern seed. Grown in bush form.

2 to 3 feet	2.60	22.50
3 to 4 feet	3.75	32.50
4 to 5 feet	4.50	
5 to 6 feet	5.50	50.00
6 to 8 feet	8.00	70.00
8 to 10 feet	12.00	

CHERRY, JAPANESE FLOWERING (*Prunus serrulata sachalinensis* vars.)

A very handsome group of flowering trees, well known for their profusion of pink and rose flowers in the Spring. Upright in habit of growth and very desirable in landscape work.

4 to 5 feet, well branched	11.00
6 to 8 feet (Kwansan only)	17.50

Kwansan (*Kansan-Sekinama*) — one the best. Flowers rich rose-red, large, late and very double.**Naden (*Prunus sieboldi*)** — double, deep pink.**Paul Wohlert** — a very fine semi-double red.**Shirofugen** — double, light pink in bud opening white, the latest to bloom.Crabs, Flowering — see *Malus*.**CRATAEGUS coccinea — Thicket Hawthorn 18-20 ft.**

One of the most decorative of the native Hawthorns, forming a broad flat to rounded head.

3 to 4 feet (B&B 50c additional)	4.50	40.00
4 to 5 feet (B&B 60c additional)	6.50	55.00
5 to 6 feet (B&B 85c additional)	11.00	100.00
6 to 8 feet (B&B \$1.25 additional)	15.00	135.00
8 to 10 feet (B&B \$1.75 additional)	19.00	175.00

DECIDUOUS TREES — CONTINUED

CRATAEGUS crugalli — Cockspur Thorn 15-18 ft.

A very distinct Hawthorne, with stiff wide-spreading branches and dark shiny green leaves that turn orange and scarlet in the Fall.

	Per 10	Per 100
3 to 4 feet (B&B 50c additional)	4.50	40.00
4 to 5 feet (B&B 60c additional)	6.50	55.00
5 to 6 feet (B&B 85c additional)	11.00	100.00
6 to 8 feet (B&B \$1.25 additional)	15.00	135.00
8 to 10 feet (B&B \$1.75 additional)	19.00	175.00

Elaeagnus angustifolia — see under Shrubs on page 19.

Elm — see *Ulmus*.

Flowering Crabs — see under *Malus* on pages 13 to 15.

FRAXINUS americana — American White Ash 70-80 ft.

A tall tree with an upright oval head, much used for street and park planting.

6 to 8 feet	4.50	40.00
8 to 10 feet	6.50	60.00
1 1/4 to 1 1/2 inch caliper	8.00	75.00
1 1/2 to 1 3/4 inch caliper	10.00	90.00
1 3/4 to 2 inch caliper	12.50	110.00
2 to 2 1/2 inch caliper	16.50	150.00
2 1/2 to 3 inch caliper	20.00	

lanceolata — Green Ash 50-60 ft.

A somewhat smaller grower than the White Ash, particularly adapted to planting in cold and dry climates.

6 to 8 feet	4.25	37.50
8 to 10 feet	6.00	55.00
1 1/4 to 1 1/2 inch caliper	7.50	70.00
1 1/2 to 1 3/4 inch caliper	9.50	85.00
1 3/4 to 2 inch caliper	11.50	100.00
2 to 2 1/2 inch caliper	15.00	135.00
2 1/2 to 3 inch caliper	19.00	
3 to 3 1/2 inch caliper	25.00	

GLEDITSCHIA triacanthos — Honey-locust 50-60 ft.

A thorny tree with very fragrant white flowers in May. A long-lived hardy tree, growing well in poor locations and thin and gravelly soils.

6 to 8 feet	6.00	50.00
8 to 10 feet	8.50	75.00
1 1/4 to 1 1/2 inch caliper	9.50	85.00
1 1/2 to 2 inch caliper	13.50	120.00
2 to 2 1/2 inch caliper	19.00	

triacanthos inermis — Thornless Honey-locust 50-60 ft.

An almost, but not entirely, thornless type of the common Honey-locust.

5 to 6 feet	4.50	40.00
6 to 8 feet	6.50	60.00
8 to 10 feet, 1 to 1 1/4 inch caliper	9.50	85.00
1 1/4 to 1 1/2 inch caliper	11.00	95.00
1 1/2 to 2 inch caliper	15.00	135.00

GYMNOCLADUS dioicus — Kentucky Coffeetree 70-90 ft.

8 to 10 feet	10.00	90.00
1 1/4 to 1 1/2 inch caliper	12.50	110.00
1 1/2 to 2 inch caliper	15.00	135.00
2 to 2 1/2 inch caliper	17.50	160.00
2 1/2 to 3 inch caliper	22.50	
3 to 3 1/2 inch caliper	30.00	

Hackberry — see *Celtis occidentalis*.

Hawthorn — see *Crataegus*.

Honey-locust — see *Gleditschia*.

Horse-chestnut — see *Aesculus*.

DECIDUOUS TREES — CONTINUED

JUGLANS nigra — Black Walnut	80-100 ft.	Per 10	Per 100
8 to 10 feet, twice transplanted		7.50	65.00
1¼ to 1½ inch caliper, twice transplanted		8.50	75.00
1½ to 2 inch caliper, twice transplanted		11.50	100.00
2 to 2½ inch caliper, twice transplanted		15.00	135.00

Kentucky Coffeetree — see *Gymnocladus*.

Linden — see *Tilia*.

MAGNOLIA glauca — Sweetbay 20-30 ft.

A very ornamental small tree with thick smooth lustrous dark green leaves and fragrant creamy-white flowers throughout the Summer.

2 to 3 feet, B&B	Each	\$ 2.00	\$ 17.50
4 to 5 feet, B&B	Each	4.25	40.00

soulangeana — Saucer or Chinese Hybrid Magnolia 30-40 ft.

The most decorative and the most popular of the hybrid Magnolias, producing a wealth of very large rose-colored bloom just before the leaves in the Spring. The plants offered were grown from layers and are on their own roots. They should not be compared with plants grafted on the tender *Magnolia grandiflora* roots, which are cheaper but not hardy.

(All own-root plants, no grafts)

2 to 3 feet, B&B	Each	\$ 3.25	\$ 30.00
3 to 4 feet, B&B	Each	4.25	40.00
4 to 5 feet, B&B	Each	5.50	52.50
5 to 6 feet, B&B	Each	6.75	65.00
6 to 8 feet, B&B	Each	7.50	72.50

MALUS — see special heading on page 13.

Maple — see *Acer*.

Mountain Ash — see *Sorbus aucuparia*.

Oak — see *Quercus*.

PLATANUS occidentalis — American Sycamore 80-90 ft.

A very large native shade tree with light green exfoliating bark.

5 to 6 feet	4.00	35.00
6 to 8 feet	6.00	55.00
8 to 10 feet, 1 to 1¼ inch caliper	9.00	80.00
1¼ to 1½ inch caliper	11.00	95.00
1½ to 1¾ inch caliper	14.00	125.00
4 to 5 inch caliper	45.00	
5 to 6 inch caliper	60.00	

Plum — see *Prunus*.

Poplar — see *Populus*.

POPULUS alba bolleana — Bolleana Poplar—see page 10.

POPULUS nigra italica — Lombardy Poplar 50-60 ft.

A fine lot of trees in all grades, of heavy caliper and well branched to the ground.

	Per 10	Per 100	Per 1000
5 to 6 feet	\$ 1.80	\$ 15.00	\$
8 to 10 feet, 1 to 1¼ inch caliper	3.20	27.00	
1¼ to 1½ inch caliper	3.50	30.00	250.00
1½ to 1¾ inch caliper	4.00	35.00	300.00
1¾ to 2 inch caliper	5.00	45.00	
2 to 2½ inch caliper	8.50	75.00	
2½ to 3 inch caliper	13.50	120.00	
3 to 3½ inch caliper	19.00	175.00	

DECIDUOUS TREES — CONTINUED

POPULUS alba bolleana — Bolleana Poplar 50-60 ft.

A narrow-columnar form of the White Poplar with green bark and silvery foliage. Probably the best of the fastigate Poplars.

	Per 10	Per 100
5 to 6 feet, own root	3.50	30.00
6 to 8 feet, own root	4.60	42.50
8 to 10 feet, 1 to 1¼ inch caliper, own root	7.00	60.00
1¼ to 1½ inch caliper, own root	8.50	75.00
1½ to 2 inch caliper, own root	10.00	90.00

PRUNUS besseyi — Bessey Cherry

A low-spreading ornamental form of Sand Cherry with profuse white flowers and black edible fruit.

18 to 24 inches	1.30	10.00
2 to 3 feet	1.60	13.00
3 to 4 feet	2.00	17.00

blireiana — Purple-leaved Plum—12-15 ft.

Foliage very dark purple; blooms very early with small pink fragrant flowers.

4 to 5 feet	4.00	
5 to 6 feet	5.00	

cistina — Hansen's Purple-leaved Plum 5-6 ft.

A very hardy variety of comparatively dwarf growth with very showy rich purplish-red foliage.

3 to 4 feet	3.50	30.00
4 to 5 feet	4.50	40.00

tomentosa — Nanking or Manchu Cherry 10-12 ft.

A very ornamental small compact tree with a very dense top. Very showy in flowers, being covered with small white flowers in the early Spring.

3 to 4 feet	3.00	27.00
4 to 5 feet	4.00	35.00

triloba — Double-flowering Plum—see under Deciduous Shrubs on page 23.

PRUNUS Newport — Purple-leaved Plum 14-16 ft.

Bright reddish-purple foliage which holds its color well throughout the season. One of the hardiest and brightest colored of the purple-leaved Plums.

Walnut — see Juglans.

Willow — see Salix.

MALUS - Flowering Crabs

Small trees producing a profusion of flowers in the Spring—one of the most desirable and most decorative classes of our ornamental flowering trees. All are small trees, very free-flowering, producing masses of very showy flowers early in the Spring, followed in the Fall by decorative fruits that often persist on the trees well into the Winter. They are perfectly hardy, grow well in any good soil, and are very satisfactory either as specimen plants or in mass plantings.

MALUS ioenis plena — Bechtel Double-flowering Crab 15-18 ft.

This is probably the best known of all of the many Flowering Crabs. It forms a small upright bushy headed tree which is covered in May with large and very double fragrant pink flowers that bear a striking resemblance to small roses. The latest in blooming period of all of the Flowering Crabs.

	Per 10	Per 100
2 to 3 feet	\$ 2.80	\$ 25.00
3 to 4 feet	4.00	35.00
4 to 5 feet	5.00	45.00

sargentii — Sargent's Crab 5-6 ft.

A low-growing bush form Crab, with rigid wide-spreading horizontal branches; when mature it is usually broader than high. One of the most decorative of the Flowering Crabs and very floriferous. Flowers cup-shaped, pure white, about an inch across. The first of the Crabs to bloom in the Spring.

MALUS - FLOWERING CRABS — DESCRIPTIVE LIST

MALUS adstringens 25-30 ft.

An upright tree of strong growth and shapely habit; very floriferous and very showy in bloom. The flowers are very large, very dark red in bud, opening to a deep rose-pink.

arnoldiana — Arnold Crab 16-18 ft.

A fine hybrid closely resembling *Malus floribunda*, but with larger flowers of soft pink. Very floriferous and one of the most handsome and shapely of the Flowering Crabs.

atrosanguinea — Carmine Crab 12-16 ft.

A spreading shrubby tree resembling *Malus floribunda* in general appearance, but with flowers of a deep rose-carmine that does not fade to white. A very heavy bloomer and a tree of striking appearance.

baccata — Siberian Crab 18-20 ft.

A small round-headed tree, earliest of the Crabs to bloom. The flowers are very large and handsome, pinkish white fading to pure white, and are followed in the Fall by cherry-like red or orange fruits.

baccata — Gibbs Golden Gage 18-20 ft.

A type of *Malus baccata* differing chiefly in the size and shape of the very decorative fruits, which are of medium size, waxy, five-sided, and a translucent yellow.

brevipes 12-16 ft.

Closely related to *Malus floribunda*, but a lower denser grower. Very free flowering and attractive with large nearly white flowers.

coronaria — Wild Sweet Crab 15-20 ft.

Very showy bluish-pink flowers, the most showy of the native Flowering Crabs.

coronaria aurea — Golden-leaved Sweet Crab

A type of the Wild Sweet Crab with golden foliage.

"Dartmouth Crab"

Large white flowers and deep reddish-purple plum-like fruit.

dawsoniana (M. fusca x M. pumila)

A slender stemmed Crab with white flowers and distinct yellow pear-shaped fruit.

floribunda — Japanese Flowering Crab 15-18 ft.

Probably the best known of the Oriental Flowering Crabs, a handsome variety and a very free bloomer. The bloom buds are rose or rose-red, opening into a mass of rose-pink blooms that gradually fade to white.

"Frau Louise Dittmann"

A very handsome Crab with large semi-double flowers of soft pink.

hopa — Hopa Crab 20-25 ft.

A very attractive variety of strong upright growth, probably a variety of *Malus adstringens*. It bears a profusion of very large double flowers of an unfading rose-red, followed by large edible fruits that are very distinctly red fleshed.

ioensis palmeri — Palmer Crab 15-18 ft.

A regional variety of the native Prairie Crab, coming from the Missouri area. A small spiny tree of compact growth, an improvement over the native Prairie Crab. Flowers large, rosy-pink fading to rosy-white.

magdeburgensis 14-16 ft.

A *Malus spectabilis* hybrid with striking semi-double rose-pink flowers borne in dense clusters. Resembles *Malus scheideckeri* in growth, but is a more robust grower.

MALUS "Lady Northcliffe"

A very attractive Crab with pinkish-white flowers and small yellow fruits.

micromalus 12-15 ft.

A small tree of very upright habit and large showy pink flowers. Fruit small, red.

"Oekonomierat Echtermeyer"

Drooping, almost pendulous branches; carmine-pink flowers and brownish red-fruit.

prunefolia rinki — Ringo Crab 15-18 ft.

A strong growing variety with wide-spreading branches and large flower trusses. Delicate pink in bud, followed by almost white flowers. The very decorative red or yellow fruit is produced very abundantly and persists on the tree well into the Winter.

pumila pendula "Elise Rathke"

A picturesque tree with broad-spreading horizontal branches which ascend at the tips. Light pink flowers and large yellowish-green fruit, striped red.

purpurea — Purple Crab

Erect and open in habit, with purplish red leaves and deep crimson flowers which are followed in the Fall by dark purplish-red fruits.

purpurea aldenhamensis — Aldenham Crab 16-18 ft.

Another very showy hybrid with bronze-purple foliage. Very similar to the Eley Crab, but the bloom is larger, semi-double to double, and a bright vineous-red.

purpurea Eleyi — Eley Crab 16-18 ft.

A very showy and handsome hybrid with reddish purple foliage, the best of the purple-leaved Crabs. The flowers are a brilliant bright red followed by dark purple fruits.

robusta — Cherry Crab 20-25 ft.

A handsome tree of strong upright growth. Flowers large, very fragrant, soft pink to white. One of the earliest of the Crabs to bloom.

robusta persicifolia — Peach-leaved Cherry Crab 20-25 ft.

Similar to the type, but with long peach-like leaves.

scheideckeri — Scheidecker Crab 12-15 ft.

A rather small uprightly branched tree with a tendency to grow in bush form when not trimmed regularly. Flowers semi-double to double, borne very freely in upright clusters, red in bud, opening deep pink. A very decorative variety.

seiboldi calocarpa (M. zumi calocarpa) — Toringo Crab 15 ft.

A wide-spreading shrubby Crab with large dark-pink flowers followed by small scarlet fruits. A very floriferous and attractive variety.

theifera — Tea Crab 15-16 ft.

One of the best and most interesting of the Flowering Crabs. Flowers light pink. Very free-flowering, resembling in its flowering habit a Cherry rather than a Crab.

"Veitch's Scarlet"

One of the showiest of the Flowering Crabs with large white flowers and attractive scarlet fruit.

zumi — Zumi Crab 12-14 ft.

A shrubby tree with a dense upright habit of growth. Flowers large, pale pink in bud, opening white.

DECIDUOUS SHRUBS

The Shrubs that we are offering are young, thrifty, well grown, and have been given plenty of room in the row to develop into well-shaped bushy plants. Graded according to the Standard Grades of the American Association of Nurserymen. Figures following the name of the plant indicate average ultimate height under reasonably good growing conditions in this section of the country.

ACANTHOPANAX (Aralia) pentaphyllum — Five-leaved Aralia 6-7 ft.

A fine massing shrub of medium height with shiny dark green foliage that does not show dust. Grows well in poor and gravelly soil.

	Per 10	Per 100
18 to 24 inches	\$ 1.75	\$ 14.00
2 to 3 feet	2.10	18.00
3 to 4 feet	2.75	22.50

ALMOND — Pink Flowering (Prunus glandulosa rosea) 5 ft.

Heavy well branched plants. We are growing all of our Almonds on their own roots. Such plants are much more compact and better in shape than those grown on Plum roots.

18 to 24 inches, own root	2.30	20.00
2 to 3 feet, own root	2.80	25.00
3 to 3½ feet, own root	3.50	30.00

ALTHAEA or Rose of Sharon (Hibiscus syriacus) 10-12 ft.

Bush form, 2 to 3 feet	1.80	15.00
Bush form, 3 to 4 feet	2.30	20.00

Anemonaeflorus — double, rose-pink.

Jeanne d'Arc — double, white.

Lucy — the best double red.

Purpurea Semi-plena — semi-double, purple.

Rubis — single red.

Snowdrift — single white.

Coelestis — bush form, 18 to 24 inches	2.50	22.00
Coelestis — bush form, 2 to 3 feet	3.00	27.00

Best of all the Althaeas, with flowers of a beautiful china-blue.

Blooms continuously from mid-summer until late Fall. Plant rather dwarf.

Aralia pentaphylla — see Acanthopanax pentaphyllum.

ARONIA arbutifolia — Red Chokeberry 8 ft.

The most handsome of the Aronias, with lustrous dark green leaves that turn scarlet in the Fall, and bright red berries.

2 to 3 feet	2.10	18.00
3 to 4 feet	2.80	
4 to 5 feet	3.50	

melanocarpa (nigra) — Black Chokeberry 6 ft.

18 to 24 inches	1.70	14.00
2 to 3 feet	2.10	18.00
3 to 4 feet	2.80	

Barberry — see Berberis.

Beauty-bush — see Kolkwitzia.

BERBERIS thunbergii — Japanese Barberry 4 ft.

12 to 15 inches, 2 year	(\$60.00 per 1000)	1.00	7.00
15 to 18 inches, 2 year	(\$75.00 per 1000)	1.20	8.50

24 to 30 inches	2.30	20.00
30 to 36 inches	3.25	28.00

BUDDLEIA — Butterfly-bush 4-5 ft.

Semi-hardy shrubs of very rapid growth that produce a wealth of showy flower-heads the first year after planting, blooming profusely from mid-summer until frosts.

Charming

Long sprays of lavender-pink flowers which are distinctly pink when compared with the other varieties.

2 year No. 1	2.30	20.00
--------------------	------	-------

Ile de France

One of the best of the Buddleias for out-door planting. Very free-flowering in spikes often a foot long; very rich dark claret-purple.

2 Year No. 1	2.00	17.00
--------------------	------	-------

CALYCANTHUS floridus — Sweetshrub 5-6 ft.

Heavy well branched plants grown from hardy northern seed.

18 to 24 inches	1.80	15.00
2 to 3 feet	2.30	20.00
3 to 4 feet	3.20	28.00

lorbergii 8-10 ft.

A very attractive and graceful large shrub with finely cut and pendulous light green foliage.

3 to 4 feet	4.00	
4 to 5 feet	5.00	

CHIONANTHUS virginica — White Fringe-tree 18-20 ft.

A very effective tall massing shrub, with large glossy leaves. Covered in the Spring with long racemes of feathery white flowers.

18 to 24 inches	2.30	20.00
2 to 3 feet	2.80	25.00
3 to 4 feet	3.50	30.00

Chokeberry — see *Aronia*.

CLETHRA alnifolia — Sweet Pepper-bush or Summer-sweet 3-4 ft.

15 to 18 inches	2.10	18.00
18 to 24 inches	2.60	22.50
2 to 2½ feet	3.30	30.00

Coralberry — see *Symphoricarpos vulgaris*.

CORNUS alba siberica — Coral Dogwood 8-10 ft.

A very vigorous tall shrub with bright red bark in the Winter. Best of the red-branched Dogwoods.

2 to 3 feet	1.60	13.00
3 to 4 feet	2.00	17.00
4 to 5 feet	2.30	20.00

alternifolia — Pagoda Dogwood 12-15 ft.

A very ornamental large shrub with an unusual form of growth, the branches being arranged in flat horizontal whorls.

2 to 3 feet	2.10	18.00
3 to 4 feet	2.50	22.00
4 to 5 feet	2.80	25.00
5 to 6 feet	3.75	32.50

2 to 3 feet		1.60	13.00
3 to 4 feet		1.80	15.00
4 to 5 feet		2.10	18.00
baileyi — Bailey Dogwood 7-8 ft.			
A vigorous upright grower with very dark red branches and foliage that turns a brilliant crimson in the Fall. The Fall coloring of the foliage and the Winter color of the stems is the most striking of all of the Dogwoods.			
2 to 3 feet		1.80	15.00
3 to 4 feet		2.10	18.00
elegantissima (C. mas elegantissima) — Silverblotch Dogwood 5-6 ft.			
An attractive small shrub with bright red bark; foliage variegated with creamy white and tinged with red.			
18 to 24 inches		2.50	22.00
2 to 3 feet		3.50	30.00
mas — Cornelian Cherry 15-20 ft.			
One of the best of the taller massing shrubs, with very deep green and shining foliage. Yellow flowers in the Spring before the leaves followed by large red edible fruits in the Fall.			
18 to 24 inches		1.80	15.00
2 to 3 feet		2.30	20.00
3 to 4 feet		2.80	25.00
paniculata — Gray Dogwood 11-12 ft.			
A small native massing shrub with upright gray branches. Covered with white berries in the Fall.			
2 to 3 feet		1.80	15.00
3 to 4 feet	(\$150.00 per 1000)	2.00	17.00
4 to 5 feet	(\$170.00 per 1000)	2.50	20.00
stolonifera — Red-osier Dogwood 8-10 ft.			
A native Dogwood with dark wine-red branches and white fruit.			
3 to 4 feet	(\$125.00 per 1000)	1.80	15.00
4 to 5 feet	(\$150.00 per 1000)	2.10	18.00
stolonifera flaviramea — Golden-twigg Dogwood 8-10 ft.			
A type of <i>Cornus stolonifera</i> with yellow branches, giving a striking Winter effect.			
18 to 24 inches		1.20	11.00
2 to 3 feet	(\$125.00 per 1000)	1.70	14.00
3 to 4 feet	(\$150.00 per 1000)	2.10	18.00
4 to 5 feet		2.60	22.00
CORYLUS americana — American Hazelnut 8-10 ft.			
2 to 3 feet		2.50	22.00
3 to 4 feet		3.25	28.00
4 to 5 feet		4.25	37.50
COTONEASTER acutifolia — Peking Cotoneaster 10-12 ft.			
A fine massing and hedging shrub with dark green leaves that turn bright red in the Fall. Black fruit.			
18 to 24 inches		1.80	15.00
2 to 3 feet		2.10	18.00
3 to 4 feet		2.50	22.00
divaricata — Spreading Cotoneaster 6 ft.			
Arching branches and attractive foliage make this a very attractive massing shrub. Covered with red berries in the Fall.			
18 to 24 inches (B&B 25c additional)		2.30	20.00
2 to 3 feet (B&B 30c additional)		3.00	27.00

4 to 5 feet (B&B 45c additional)		6.00	
foveolata — Glossy Cotoneaster 5-8 ft.			
A very attractive hardy Cotoneaster with glossy leaves and black fruit. The foliage turns bright scarlet and orange in the Fall.			
18 to 24 inches (B&B 25c additional)		2.30	20.00
2 to 3 feet (B&B 30c additional)		3.00	27.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

DECIDUOUS SHRUBS — CONTINUED

Cranberry, Highbush — see *Viburnum americanum* and *Viburnum opulus*.**CYDONIA japonica — Japanese Flowering Quince 5-6 ft.**

A low shrub of dense bushy growth. Dark shiny foliage and clusters of showy orange-scarlet flowers just as the leaves come out in the Spring.

	Per 10	Per 100
15 to 18 inches	1.70	14.00
18 to 24 inches	2.30	20.00
2 to 3 feet	2.80	25.00

DEUTZIA lemoinei — Lemoine's Deutzia 5 ft.

A handsome and free-flowering semi-dwarf shrub, one of the hardiest of the Deutzias.

15 to 18 inches	1.90	16.00
18 to 24 inches	2.60	22.50
2 to 2½ feet	3.10	27.50
2½ to 3 feet	3.60	32.50

scabra Pride of Rochester — Large-flowered Deutzia 10-12 ft.

A strong grower and a free bloomer; large and long-lasting double white to pale pink flowers in late May.

2 to 3 feet	1.70	14.00
3 to 4 feet	2.00	17.00
4 to 5 feet	2.30	20.00

Dogwood — see *Cornus*.**ELAEAGNUS angustifolia — Russian Olive 15-20 ft.**

A tall massing or screening shrub with attractive gray-green foliage. Very hardy. Often used for hedges and windbreaks.

3 to 4 feet	2.10	18.00
4 to 5 feet	2.50	22.00
5 to 6 feet	3.20	28.00

Elder — see *Sambucus*.**EUONYMUS alatus — Winged Euonymus or Burning-bush 8 ft.**

Best of the hardy types of Euonymus. A compact slow-growing bush form with corky winged bark. Foliage turns brilliant red with the first frosts.

18 to 24 inches	4.00	35.00
2 to 3 feet	5.50	50.00
3 to 3½ feet	7.50	

americanus — Brook Euonymus 6-8 ft.

An attractive upright shrub with large and very showy pink fruits.

3 to 4 feet	3.00	
4 to 5 feet	4.00	
5 to 6 feet	4.50	

atropurpureus — Wahoo 10-12 ft.

A vigorous hardy native shrub or small tree producing a wealth of decorative scarlet berries in the Fall. Brilliant red autumn foliage.

18 to 24 inches	1.90	16.00
2 to 3 feet	2.50	22.00
3 to 4 feet	3.00	27.00
4 to 5 feet	4.00	35.00

europaeus — European Burning-bush 12-14 ft.

A large shrub or small tree, heaviest fruiting of all the Euonymus. Brilliant autumn foliage.

2 to 3 feet	2.00	
3 to 4 feet	2.50	22.00
4 to 5 feet	3.50	30.00
5 to 6 feet	4.25	37.50
6 to 8 feet	5.50	50.00

yeddoensis — Yeddo Euonymus 8 ft.

A broad-headed shrub with good foliage and attractive pink fruit.

In type of growth it is much like *Euonymus alatus* and makes a very satisfactory massing shrub.

2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00
4 to 5 feet	3.30	30.00

DECIDUOUS SHRUBS — CONTINUED

FORSYTHIA fortunei — Fortune's Forsythia 8-10 ft.

Upright shrub with arching branches. Yellow flowers early in April.		
2 to 3 feet	(\$110.00 per 1000)	1.60
3 to 4 feet	(\$130.00 per 1000)	1.90
4 to 5 feet	(\$170.00 per 1000)	2.30

Per 10
Per 100
13.00
16.00
20.00

intermedia — Border Forsythia 8-10 ft.

A vigorous and free-flowering shrub with arching branches, hardest of the Forsythias.

18 to 24 inches	1.30	10.00
2 to 3 feet	(\$110.00 per 1000)	1.60
3 to 4 feet	(\$130.00 per 1000)	1.90
4 to 5 feet	2.30	20.00

intermedia nana — Dwarf Forsythia 2-3 ft.

A very attractive new dwarf shrub forming a broad compact somewhat spreading plant.

15 to 18 inches	1.90	16.00
18 to 24 inches	2.10	18.00
2 to 2½ feet	2.60	22.50

intermedia spectabilis — Showy Border Forsythia 8-10 ft.

An improved form of Forsythia intermedia with larger showier flowers.

2 to 3 feet	1.70	14.00
3 to 4 feet	2.00	17.00
4 to 5 feet	2.60	22.50

suspensa — Weeping Forsythia 6-8 ft.

Shrub with long vine-like pendulous branches, excellent for massing and bank plantings.

2 to 3 feet	1.80	15.00
3 to 4 feet	2.10	18.00

Fringe-tree, White — See Chionanthus virginica.

Fringe, Purple — See Rhus cotinus.

HAMAMELIS virginica — Witchhazel 10-12 ft.

A large native shrub which grows particularly well in semi-shady places. Bright yellow flowers in the Fall after the leaves have fallen.

18 to 24 inches	2.30	20.00
2 to 3 feet	2.80	25.00
3 to 4 feet	3.50	30.00

Hazelnut — see Corylus americana.

Hibiscus — see Althaea.

Honeysuckle — see Lonicera.

HYDRANGEA arborescens grandiflora — Hills of Snow 5-6 ft.

Large, snowball-like heads of white flowers in June and July.

Prefers moist and partly shady places.

12 to 18 inches	1.70	14.00
18 to 24 inches	2.00	17.00
2 to 3 feet	2.30	20.00
3 to 3½ feet	(\$220.00 per 1000)	2.80

paniculata grandiflora — Pee Gee Hydrangea 8-10 ft.

Large paniced heads of showy white flowers in August, which fade thru pink to brown and remain on the plants until frost. The true large-flowered type.

12 to 18 inches	1.80	13.00
18 to 24 inches	1.90	16.00
2 to 3 feet	(\$180.00 per 1000)	2.30
2½ to 3 feet, heavy	(\$220.00 per 1000)	2.70
3 to 3½ feet, heavy	3.00	27.00

DECIDUOUS SHRUBS — CONTINUED

ILEX verticillata — Winterberry or Black Alder 6-8 ft.

A hardy slow-growing shrub of the Holly family with bright red berries that last well into the Winter. Prefers moist locations.

	Per 10	Per 100
18 to 24 inches	2.30	18.00
2 to 3 feet	2.60	22.50
3 to 4 feet	3.50	

Kerria, White — see *Rhodotypos*.

KOLKWITZIA amabilis — Beauty Bush 6-8 ft.

A large shrub with slender graceful arching branches and pink weigela-like flowers early in June.

15 to 18 inches	2.30	20.00
18 to 24 inches	3.20	28.00
2 to 3 feet	3.60	32.00
3 to 4 feet	4.50	40.00

LIGUSTRUM amurense — Amoor River North Privet

Northern grown transplanted heavily branched stock that was all cut back to the ground last Spring.

12 to 18 inches, 3 canes and up	(\$40.00 per 1000)	.70	5.00
18 to 24 inches, 4 canes and up	(\$52.50 per 1000)	.85	6.25
2 to 3 feet, 4 canes and up	(\$65.00 per 1000)	1.00	7.50
2 to 3 feet, 8 canes and up, heavy	(\$80.00 per 1000)	1.20	9.00
3 to 4 feet, 4 canes and up	(\$80.00 per 1000)	1.20	9.00
3 to 4 feet, 10 canes and up, heavy	(\$95.00 per 1000)	1.40	11.00

obtusifolium (ibota) regalianum — Regal's Border Privet

The true low-growing spreading type, grown from cuttings; a low dense many-branched shrub, fine for low mass plantings. These plants are very heavily branched.

15 to 18 inch spread	1.50	12.00
18 to 24 inch spread	(\$140.00 per 1000)	1.90 16.00
24 to 30 inch spread	(\$180.00 per 1000)	2.50 22.00
30 to 36 inch spread	3.00	27.00

Lilac — see *Syringa*.

LONICERA bella albidia — White Belle Honeysuckle 8-10 ft.

A very hardy upright shrub with spreading branches, making a very fine tall hedge plant.

4 to 5 feet	2.30	20.00
5 to 6 feet	3.20	28.00

bella rosea — Pink Belle Honeysuckle 7-8 ft.

A spreading upright grower of medium height. Bright pink flowers and red fruits.

2 to 3 feet	1.70	14.00
3 to 4 feet	2.10	18.00
4 to 5 feet	2.75	24.00

morrowi — Morrow's Honeysuckle 8-9 ft.

One of the best of the bush Honeysuckles for massing. An upright shrub with a horizontal spreading habit of branching. Yellow and white flowers.

18 to 24 inches	1.50	12.00
2 to 3 feet	1.80	15.00
3 to 4 feet	2.30	20.00
4 to 5 feet	3.20	27.00

ruprechtiana — Manchurian Honeysuckle 8-10 ft.

An excellent Honeysuckle for massing; flowers white changing to yellow.

2 to 3 feet	1.90	16.00
-------------------	------	-------

syringantha wolffi — Wolfs Lilac Honeysuckle 4-5 ft.

A little known tho very attractive Honeysuckle, with twiggy spreading or drooping branches and narrow blue-green leaves. The tubular pinkish-lilac blooms, borne chiefly in May but scatteringly throughout the Summer, are very fragrant.

2 to 3 feet	1.80	15.00
3 to 3½ feet	2.10	18.00

DECIDUOUS SHRUBS — CONTINUED

LONICERA tatarica alba — White Tatarian Honeysuckle		10-12 ft.	
A strong-growing upright form with white flowers.		Per 10	Per 100
2 to 3 feet		1.70	14.00
3 to 4 feet	(\$140.00 per 1000)	1.90	16.00
4 to 5 feet	(\$180.00 per 1000)	2.30	20.00

tatarica rosea — Pink Tatarian Honeysuckle 10-12 ft.

A very hardy and vigorous grower, best known of the bush Honeysuckles. Bright pink flowers and red fruits.			
2 to 3 feet		1.70	14.00
3 to 4 feet		2.10	18.00
4 to 5 feet		2.50	22.00

tatarica siberica — Red Tatarian Honeysuckle 8-10 ft.

The most upright in growth of all of the Honeysuckles, but a slower grower than the Pink Tatarian. The bloom is a deep rosy-pink.			
18 to 24 inches		1.40	11.00
2 to 3 feet		1.70	14.00
3 to 4 feet	(\$160.00 per 1000)	2.10	18.00
4 to 5 feet		2.50	22.00

Mock-orange — see *Philadelphus*.Moss-locust — see *Robina hispida*.Ninebark — see *Physocarpus*.Pea-tree — see *Caragana*.**PHILADELPHUS coronarius — Sweet Mock-orange** 10 ft.

The large-flowered type of the old-fashioned sweet-scented Mock-orange.			
18 to 24 inches		1.50	12.00
2 to 3 feet		1.70	14.00
3 to 4 feet		2.10	18.00
4 to 5 feet		2.60	22.50

virginalis — Virginal Mock-orange 7-8 ft.

The most popular of all of the hybrid Mock-oranges. A rather open grower of medium height. The flowers are very large, semi-double to double, pure white, and very fragrant. Blooms very freely in the Spring and sparingly all thru the Summer.			
18 to 24 inches		2.30	20.00
2 to 3 feet		2.80	25.00

PHYSOCARPOS opulifolius — Common Ninebark 8-10 ft.

2 to 3 feet	1.60	13.00
3 to 4 feet	1.80	15.00
4 to 5 feet	2.10	18.00

opulifolius aureus — Golden Spirea 8-10 ft.

2 to 3 feet	1.60	13.00
3 to 4 feet	1.80	15.00
4 to 5 feet	2.10	18.00

opulifolius nanus — Dwarf Ninebark 4-5 ft.

A very neat small shrub, closely resembling the parent, but smaller in every way. The leaves are small, closely resembling those of <i>Ribes alpinum</i> .		
15 to 18 inches	1.40	11.00
18 to 24 inches	1.60	13.00
2 to 3 feet	1.80	15.00
3 to 4 feet	2.10	17.50

Plum, Double-flowering — see *Prunus triloba*.Privet — see *Ligustrum* on page 21.**PRUNUS besseyi — Bessey Cherry** — see under Deciduous Trees.*glandulosa rosea* — see Almond, Pink Flowering.

Purple-leaved — see under Deciduous Trees on page 10.

tomentosum — Nanking Cherry — see under Deciduous Trees on page 10.

DECIDUOUS SHRUBS — CONTINUED

PRUNUS triloba — Double flowering Plum 7-8 ft.

A handsome, vigorous, and very hardy large shrub producing a wealth of large double pink flowers before the leaves in the Spring. Please note that all of the plants offered are own root plants, bush form.

	Per 10	Per 100
18 to 24 inches, own root	2.50	22.00
2 to 3 feet, own root	3.20	28.00
3 to 4 feet, own root	4.00	35.00
4 to 5 feet, own root	4.50	40.00

Quince, Japanese Flowering — see *Cydonia japonica*.

Red-bud — see *Cercis canadensis* on page 7.

RHODOTYPOS kerrioides — Jetbead or White Kerria 4-5 ft.

A much branched shrub, one of the best for massing where a low growth is desired. Does well in shaded places. White flowers in the early Spring followed by jet-black fruits.

2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00

RHUS canadensis (*Rhus aromatica*) — Fragrant Sumac 4-5 ft.

A fine low massing shrub with dark green aromatic foliage that turns orange and scarlet in the Fall.

18 to 24 inches	1.90	16.00
2 to 3 feet	2.30	20.00
3 to 4 feet	2.75	24.00
4 to 5 feet	3.50	30.00

RHUS cotinus — Purple Fringe 10-15 ft.

A large shrub of rapid growth, fine for specimen and large mass plantings. The plant is covered in the Fall with large panicles of very fine smoky-purple flowers.

3 to 4 feet	3.50	30.00
4 to 5 feet	4.25	37.50
5 to 6 feet	5.50	50.00

typhina laciniata — Fern-leaved or Shredded Sumac 10 ft.

One of the most handsome of the taller Sumacs, with very finely cut foliage that turns yellow and scarlet in the Fall.

2 to 3 feet	(\$110.00 per 1000) 1.60	13.00
3 to 4 feet	(\$150.00 per 1000) 2.10	17.50
4 to 5 feet	3.00	25.00

ROBINIA hispida — Rose Acacia or Moss Locust 6 ft.

A shrub Locust with very attractive foliage, bearing a profusion of rosy pink flowers in May. Grafted to prevent suckering.

2 to 3 feet	2.00	
3 to 4 feet	2.50	
4 to 5 feet	3.00	

ROSA setigera — Prairie Rose 4-6 ft.

One of the most attractive of the native massing Roses with long arching branches and attractive large single pink flowers.

2 year No. 1, 2 to 3 feet	1.70	14.00
3 year No. 1, 3 to 4 feet	2.20	18.00

SAMBUCUS nigra aurea — Golden-leaved Elder 10 ft.

The foliage is a bright golden yellow which holds its depth of color throughout the season if planted in full sun.

18 to 24 inches	1.30	10.00
2 to 3 feet	1.70	14.00
4 to 5 feet	3.00	25.00

Snowball — see *Viburnum opulus sterile*.

Snowberry — see *Symphoricarpos*.

SORBARIA sorbifolia — Ash-leaved Spirea or Ural False Spirea

2 to 3 feet	1.70	14.00
3 to 4 feet	2.10	18.00

DECIDUOUS SHRUBS — CONTINUED

SPIRAEA Anthony Waterer 3-4 ft.

A well known dwarf shrub with numerous heads of bright red flowers thru the Summer.

	Per 10	Per 100
15 to 18 inches	1.90	16.00
18 to 24 inches	2.25	19.00
24 to 30 inches	2.75	24.00

arguta — Snowgarland 5-6 ft.

An upright hardy shrub with narrow light green foliage, which produces a wealth of small white flowers before the leaves in the Spring. Similar to, but more vigorous in growth than *Spiraea thunbergii*.

2 to 3 feet	1.70	14.00
3 to 4 feet	2.10	18.00
4 to 5 feet	2.40	20.00

froebeli — Frobel Spirea 4-ft.

Similar in type of growth to *Spiraea Anthony Waterer* but a slightly taller and hardier plant. Flowers deep rose-red. Foliage turns brilliant red in the Fall.

15 to 18 inches	1.50	12.00
18 to 24 inches	1.70	14.00
24 to 30 inches	2.10	18.00

prunefolia plena — Double Bridalwreath 5-6 ft.

The true Bridalwreath, with small plum-like leaves and very double white flowers borne in few-flowered umbels. Free-flowering.

2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00

thunbergii — Thunberg's Garland Spirea 3-4 ft.

Dwarf shrub with slender spreading branches and feathery light green foliage. Covered with a wealth of small white flowers before the leaves in the Spring.

2½ to 3 feet	(\$150.00 per 1000)	2.10	18.00
3 to 3½ feet		2.50	22.00

Van Houttei — commonly known as Bridalwreath 6-7 ft.

One of the most graceful and most easily grown of all massing shrubs; small white flowers in clusters cover the plants in the early Spring.

18 to 24 inches	(\$ 75.00 per 1000)	1.20	9.00
2 to 3 feet	(\$110.00 per 1000)	1.60	13.00
3 to 4 feet	(\$150.00 per 1000)	2.00	17.00
4 to 5 feet		2.50	22.00

Sumac — see Rhus.

SYMPHORICARPOS chenaulti — Spotted Snowberry 4-5 ft.

The best and most handsome of the Snowberries. A new hybrid with small leaves and white fruit spotted with pink.

18 to 24 inches	1.20	9.00	
2 to 3 feet	1.40	11.00	
3 to 4 feet	(\$125.00 per 1000)	1.70	14.00
4 to 5 feet	2.00	17.00	

racemosus — White Snowberry 4-5 ft.

An upright shrub, particularly adapted to planting in shaded places. Waxy-white berries in the Fall.

18 to 24 inches	1.20	
2 to 3 feet	1.50	12.00

vulgaris — Red Snowberry or Coralberry 4-5 ft.

A low spreading shrub that does well in shaded places. One of the best that we have for holding steep banks.

18 to 24 inches	(\$ 65.00 per 1000)	1.10	8.00
2 to 3 feet	(\$ 85.00 per 1000)	1.40	11.00
3 to 4 feet	(\$110.00 per 1000)	1.70	14.00

SYRINGA — Lilac Species — see page 29.

Hybrid Lilacs — see pages 25 to 29.

FRENCH LILACS

For a number of years we have been specializing in the growing of French Lilacs and are propagating from a long list of varieties covering a wide range of color and form, a list that contains the better and more popular of the older varieties as well as many of the newer and finer types.

OWN-ROOT Plants:—The Lilacs which we offer here are own-root plants. Our French Lilacs are propagated by grafting on small pieces of Privet root, not by budding on Privet or Common Lilac. The grafts are planted deep, both in the bed and when transplanted to the nursery row. When grown in this manner the Privet acts as a nurse root for the Lilac scion until such time as the Lilac can develop its own root system. When that is accomplished, it soon overgrows the Privet and the Privet dies off—in fact on some varieties we are even able to remove the Privet root when transplanting from the beds into the field. There is of course quite a little difference in how long it takes for the different varieties to go onto their own roots but any of our plants which have been grown in the field two years after transplanting are at least started on their own roots.

Own-root plants have the marked advantage over budded plants in that they are perfectly hardy and therefore much longer lived, and that all of the sprouts from the roots will be true to variety. Many nurserymen propagate French Lilacs by budding above the ground on California Privet, or, tho much less frequently, on Common Lilac stocks. Plants budded on Privet are almost invariably short lived unless the plant is set low enough in the ground when transplanted so that the Lilac can develop its own roots, a type of planting seldom accomplished with developed plants even by persons who understand the necessity for deep planting. If planted at the normal depth the plants are not root-hardy, as the tender Privet is apt to kill off during severe winters. Plants left too long on Privet roots are apt to develop a "graft blight" resulting from insufficient union with and overgrowth of the root stock by the scion. Buds on Common Lilac, on the other hand, are root-hardy and make a good union, but the root stocks invariably sprout. Such sprouts, being hard to distinguish from the budded variety and also usually being of stronger growth, often drown out the buds.

In order to facilitate pricing, we have divided the Lilacs which we are offering into four price groups.

We can furnish small quantities of some varieties and sizes not included in the following quantity lists.

For additional varieties of French Lilacs and Descriptive List and Color Classification see pages 26, 27, 28, and 29.

FRENCH LILACS - CLASSIFICATION TO COLOR

As it is almost impossible to describe colors of flowers, particularly in a long list of similar varieties, so as to really give a good ideal of color tones, we have divided the Lilacs on our list into nine general color groups so as to aid in color classification. It should also be remembered that there is a decided difference in the form of the individual Lilac flowers, as well as in the shape and size of the trusses or clusters. Also that there is often a decided difference in the growth characteristics of the different varieties.

The color classification given here follows that included in the recent report of the Committee on Horticultural Varieties of the American Association of Botanical Gardens and Arboretums and therefore differs somewhat from the color classification which we have been using in previous years. The varieties under each color group are listed according to their place preference in the Committee report.

White Varieties

Single Varieties — Mont Blanc, Jan Van Tol, Marie Legraye, Frau Bertha Dammann.

Double Varieties — Edith Cavell, (Miss) Ellen Willmott, Jeanne d'Arc, Mme. Lemoine, Mme. Casimir Perier.

Violet Shades

Single Varieties — De Miribel, Louvois.

Double Varieties — Marechal Lannes.

Blue Shades

Single Varieties — Pres. Lincoln, Descaigne, Bleuatre.

Double Varieties — Emile Gentil.

Bluish Lilac Shades

Single Varieties — Maurice Barres, Katherine Havemeyer, General Sherman.

Double Varieties — Pres. Grevy, Pres. Carnot.

Lilac Shades

Single Varieties — Hugo Koster, Pascal.

Double Varieties — Pres. Fallieres, Leon Gambetta, Desfontaines, Souv. de L. Thibaut, Michel Buchner, Emile Lemoine, Mme. Leon Simon, Renoncule, Alphonse Lavallee.

Lilac Pink Shades

Single Varieties — Lamartine, Descartes.

Double Varieties — Waldeck Rousseau, Jean Mace, Vauban, Claude Bernard, LaMauve.

Pink Shades

Single Varieties — Lucie Baltet, Frau Wilhelm Pfitzer, Buffon.

Double Varieties — Montaigne, Edouard Andre.

Reddish Purple Shades

Single Varieties — Reaumur, Congo, Ruhm von Horstenstein, Charles X, De Croncels.

Double Varieties — Paul Thirion, Mrs. Edward Harding, Charles Joly, William Robinson, La Tour d'Auvergne.

Deep Purple Shades

Single Varieties — Ludwig Spaeth, Diderot.

Double Varieties — Adelaide Dunbar.

FRENCH LILACS - DESCRIPTIVE LIST

In April 1942 the Committee on Horticultural Varieties of the American Association of Botanical Gardens and Arboretums published the results of a study which the Committee had made of better than 500 varieties of Lilac hybrids, including in that report a recommendation of the one hundred "best" Lilacs based on ratings received during that study. We have marked with an asterisk (*) the varieties in this list which are included in that list of one hundred.

Alphonse Lavallee — flowers double, of medium size, clear lilac, deeper within than without. Clusters large, shapely, and compact. A splendid variety.

*Buffon — single, very attractive mauve-pink flowers with reflexed lobes.

*Charles Joly — flowers double, quite large, very dark violet-purple with silvery reflex; clusters open, of medium size. An old variety, but still one of the best all-around double dark reds.

Charles X — An old free-flowering favorite. Flowers single, of medium size, reddish-violet; compact clusters of medium size. One of the most free-flowering of all the French Lilacs.

Claude Bernard — long panicles of double or semi-double bright mauve lilac flowers.

*Congo — single flowers in large open clusters. An old and very popular variety, very deep reddish purple without, lighter within the corolla.

FRENCH LILACS — DESCRIPTIVE LIST — Continued

- De Cronsels — single flowers of medium size in open pyramidal clusters; a fine bright red in bud expanding to lilac-red.
- Descartes — large panicles of single mauve pink flowers, extra floriferous. The color comes nearer to a clear pink than that of any other Hyacinthiflora variety.
- Desfontaines — flowers large, double, violet-blue; in very large open clusters. A conspicuous variety of excellent growth characteristics and a good clear color.
- *Diderot — flowers single, extra large, very deep red; in long, large clusters. A very fine bloom and an outstanding example of the modern showy lilac, but, like many of the darker Lilacs, is a slow dwarf grower.
- *Edouard Andre — double flowers of medium size in open much-branched clusters; clear rose, or nearly pink. One of the best of the pink Lilacs.
- *Ellen Willmott — flowers large, double to very double, creamy white; in very large and long panicles. A strong grower and very free bloomer, generally rated as the best of the double white Lilacs.
- Emile Lemoine — double well-formed flowers of medium size in large open clusters. Deep vinaceous lilac to pink, as clear a pink as is usually found in lilacs.
- Frau Bertha Dammann — single white flowers of medium size in unusually large open clusters.
- *Frau Wilhelm Pfitzer — large single flowers in long open clusters; pale bluish-violet. A strong thrifty plant and an excellent variety.
- *Gen. Sherman — large many-shouldered upright clusters of single flowers which are of varying shades of porcelain blue.
- Hugo Koster — single, bluish-lilac to light reddish-purple, flowers and clusters both very large. One of the best of the single Lilacs, distinct and attractive.
- *Jan Van Tol — single, very fragrant, pure white. A dwarf stocky grower with enormous individual flowers in very large symmetrical clusters. An outstanding variety, particularly in the size of the flowers.
- *Jean Mace — large double flowers in large and very compact clusters; bluish-mauve. A fine variety with an unusually good thrifty habit of growth, one of the most free-flowering of the French Lilacs. Early.
- *Jeanne d'Arc — large double white flowers in long open clusters. A very fine and showy variety. Plant rather dwarf and a late bloomer.
- *Lamarine — one of the earliest to bloom; single, extremely large trusses of beautiful purplish-lilac flowers with margins of pale violet.
- La Mauve — double; pale lilac-pink flowers in long narrow clusters.
- La Tour d'Auvergne — flowers large, double, and star-shaped, in open narrow clusters of variable size; dark red in bud opening dark purplish violet.
- *Louvois — extremely large clusters of large single flowers; deep violet-purple with bluish shades.
- *Ludwig Spaeth — flowers single, large, in large well-filled clusters; very deep maroon-red. Very free-blooming, and of strong thrifty growth. A very popular variety and without question the best all-around single dark Lilac.
- *Marechal Lannes — flowers semi-double to double, exceptionally large; in large, full, erect clusters; bluish-violet. A choice and very showy variety.
- *Marie Legraye — flowers large, single, creamy white; clusters of medium size. A strong, erect and very profuse bloomer.
- *Maurice Barres — flowers single, very large, pale azure lilac; large open clusters. A very handsome and showy variety.
- Michel Buchner — flowers double, medium to large, pinkish-lilac; long narrow clusters. One of the best known and most popular varieties.
- *Miss Ellen Willmott — see Ellen Willmott.
- *Mme. Casimir Perier — large double creamy white flowers in large well-filled clusters. A very satisfactory double white that may be depended upon to bloom freely each year.
- *Mme. Lemoine — flowers large, double, pure white; clusters narrow, medium to large. One of the most satisfactory and popular of the double whites, and a very dependable bloomer.
- Mme. Leon Simon — flowers large, double, in fine large open clusters; lilac-pink. Strong narrow upright grower.
- Montaigne — flowers very large and double; in long narrow clusters; mauve pink. A fine variety of strong growth.
- *Mont Blanc — flowers white, single, very large; in long well-filled clusters. A very showy and beautiful variety that we consider the best of the single white Lilacs.
- Pascal — very free-flowering; single, a fine light vinaceous lilac.
- *Paul Thirion — large double flowers in very large and showy well-filled clusters; rosy-lavendar tinged claret, much resembling large double violets. A very fine and showy variety.

FRENCH LILACS — DESCRIPTIVE LIST — Continued

- Pres. Carnot** — flowers large, double, light lilac blue; in long narrow clusters. A free-blooming strong-growing variety of very good color.
- ***Pres. Fallieres** — large pale lavender to vinaceous lilac flowers in very large clusters. And outstanding variety with good growth characteristics and showy flowers.
- ***Pres. Grevy** — flowers large, semi-double to double, in large pyramidal clusters; a clear soft delicate blue. An old variety that is still one of the best of its color.
- ***Reaumur** — flowers single, very large, violet-carmine and satiny-rose; in long well-filled clusters. A very choice dark Lilac, but a slow and rather poor grower.
- ***Ruhm von Horstenstein** — flowers very large, single, in long narrow trusses; an even dark reddish purple. A very promising free-blooming new variety.
- Renoncule** — flowers fragrant, double, of medium size, in narrow compact clusters; a pleasing even bluish lavender. Free-flowering and a strong grower.
- ***Vauban** — flowers double, sometimes semi-double, light lilac-pink tho much darker in bud.
- Ville de Limoges** — single flowers of medium size in well-filled pyramidal clusters; mauve-pink. One of the most fragrant of all Lilacs.
- ***Waldeck-Rousseau** — double flowers of medium size, in large, long, many-branched clusters; deep violet, darker without than within. A very pleasing variety.
- William Robinson** — flowers double, large, in large open irregular clusters; deep red in bud expanding to light crimson.

SYRINGA japonica — Japanese Tree Lilac 18-20 ft.

A very large shrub, attaining the proportions of a small tree. Large panicles of creamy white flowers in July long after the bloom of all other Lilacs is gone.

	Per 10	Per 100
2 to 3 feet	3.00	26.00
3 to 4 feet	3.75	32.50
4 to 5 feet	4.50	40.00

persica (rothomagensis) — Persian Lilac 8-10 ft.

An upright vigorous grower, the most free-flowering of all of the Lilacs. Flowers deep purplish red in very large heads. This variety should properly be called Chinese Lilac, (Syringa, rothomagensis), as the true Persian Lilac is a small weak grower with pale lilac flowers and is practically unknown in the nursery trade.

18 to 24 inches	2.00	
2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00
4 to 5 feet	3.60	32.00

villosa — Late Lilac or Pink Lilac 8-10 ft.

A bushy, compact shrub of rapid growth, producing a profusion of rosy-pink flowers in June after the Common Lilacs are gone

18 to 24 inches	1.80	15.00
2 to 3 feet	2.30	20.00

vulgaris — Common Purple Lilac 12-15 ft.

2 to 3 feet	2.10	18.00
3 to 4 feet	2.60	22.50
4 to 5 feet	3.60	32.50

vulgaris alba — Common White Lilac 12-15 ft.

18 to 24 inches	1.90	16.00
2 to 3 feet	2.50	22.00
3 to 4 feet	3.50	30.00

TAMARIX hispida — Kashgar Tamarix 12-15 ft.

The best hardy Tamarix. Slow-growing, compact and upright, with feathery silvery-green foliage and long panicles of bright pink bloom over a long season in early summer.

18 to 24 inches	1.40	11.00
2 to 3 feet	1.70	14.00
3 to 4 feet	2.10	18.00
4 to 5 feet	2.50	22.00

DECIDUOUS SHRUBS — CONTINUED

VIBURNUM americanum — American Cranberrybush 8-10 ft.

Very similar to the European High-bush Cranberry, but a more handsome plant. Profusion of orange-scarlet berries in the Fall.

	Per 10	Per 100
18 to 24 inches	2.10	18.00
2 to 3 feet	2.50	22.00
3 to 4 feet	3.00	27.00
4 to 5 feet	4.50	40.00

carlesi — Fragrant Viburnum 4-6 ft.

One of the most desirable of the semi-dwarf flowering shrubs.

The delicate pink flowers are long-lasting and very fragrant.

18 to 24 inches, B&B	17.50	
2 to 2½ feet, B&B	22.50	

dentatum — Arrow-wood 8-10 ft.

An upright shrub of dense growth, very good for massing where a medium to tall shrub can be used. Does well on north sides and in partial shade.

2 to 3 feet	(\$150.00 per 1000)	2.00	17.00
3 to 4 feet	(\$200.00 per 1000)	2.50	22.00
4 to 5 feet	(\$240.00 per 1000)	3.00	27.00

lantana — Wayfaring Tree—10-12 ft.

A handsome large shrub of upright growth with soft thick foliage that turns scarlet in the Fall. Attractive flowers and fruits.

18 to 24 inches	1.70	14.00
2 to 3 feet(\$160.00 per 1000)	2.10	18.00
3 to 4 feet(\$200.00 per 1000)	2.50	22.00
4 to 5 feet	3.50	30.00

lentago — Nannyberry 15-18 ft.

A tall upright massing shrub with dark green leaves that turn scarlet in the Fall. Large blue-black fruit.

18 to 24 inches	1.70	14.00
2 to 3 feet	1.90	16.00
3 to 4 feet	(\$200.00 per 1000)	2.60
4 to 5 feet	(\$250.00 per 1000)	3.50
5 to 6 feet	(\$340.00 per 1000)	4.50

opulus — European High-bush Cranberry 10 ft.

A well known tall hardy shrub, with large clusters of scarlet fruit in the Fall that remain on the plant until late in the Winter.

18 to 24 inches	2.10	18.00	
2 to 3 feet	2.30	20.00	
3 to 4 feet	(\$225.00 per 1000)	2.80	25.00
4 to 5 feet	(\$300.00 per 1000)	4.00	35.00
5 to 6 feet	6.00	55.00	

opulus sterile — Common Snowball 10 ft.

The well-known old-fashioned Snowball.

18 to 24 inches	2.10	18.00
2 to 3 feet(\$200.00 per 1000)	2.50	22.00
3 to 4 feet(\$240.00 per 1000)	3.00	27.00
4 to 5 feet	4.00	35.00

WEIGELA Eva Rathke — Red-flowered Weigela 4-5 ft.

Brilliant crimson flowers, a very profuse bloomer.

2 to 3 feet	3.00	
3 to 4 feet	3.50	30.00

floribunda rubra — Crimson Weigela 6-8 ft.

A stronger and more desirable grower than Weigela Eva Rathke, but does not bloom as profusely. Dark crimson flowers.

2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00

rosea — Pink Weigela 7-8 ft.

Best known of all of the Weigelas, with very showy flowers in late May.

2 to 3 feet	2.00	17.00
3 to 4 feet	2.50	

Witch-hazel — see Hamamelis.

CLIMBING VINES

AMPELOPSIS engelmanni — Engelman Creeper

A lighter growing type of the well-known Virginia Creeper with sucker-discs that permit it to climb on stone and brick; very hardy. Per 10

		Per 100
3 year No. 1	\$ 1.70	\$ 14.00
2 year No. 1	(\$100.00 per 1000) 1.50	12.00
2 year medium	(\$ 80.00 per 1000) 1.20	9.00

quinquefolia — Virginia Creeper

2 year No. 1	(\$100.00 per 1000) 1.50	12.00
2 year medium	(\$ 80.00 per 1000) 1.20	9.00

veitchii (Ampelopsis tricuspidata) — Boston Ivy

The best known and most popular of the stone climbers; attractive foliage that turns brilliant crimson in the Fall.

3 year No. 1, 2 to 3 feet	2.75	24.00
2 year No. 1, 18 to 24 inches	2.30	20.00
2 year medium, 12 to 18 inches	1.90	16.00

CELASTRUS orbiculatus — Japanese Bittersweet

More vigorous in growth than the Native Bittersweet and fruits more profusely, but the berries are much smaller. Blue-green foliage and showy orange-red fruits.

2 year Extra Heavy	2.00	17.00
2 year No. 1	1.60	13.00

scandens — Native Bittersweet

Yellow-green foliage and very showy large orange-red fruits.

2 year Extra Heavy	2.00	17.00
2 year No. 1	(\$110.00 per 1000) 1.60	13.00
2 year medium	1.40	11.00

CLEMATIS — Large-flowering Hybrids

2 year No. 1, dormant	4.50	40.00
-----------------------------	------	-------

Duchess of Edinburgh — double, pure white.

Henryii — single, pure white.

Jackmanni — rich purple.

Mme. Edouard Andre — carmine violet.

paniculata — Sweet Autumn Clematis

2 year No. 1	2.60	22.50
2 year, Extra Heavy	3.20	27.50

EUONYMUS radicans vegetus (E. fortunei vegetus) — Bigleaf Wintercreeper

Evergreen. Thick dark-green leaves. Scarlet berries.

2 year No. 1, 12 to 15 inches	4.00	
-------------------------------------	------	--

POLYGONUM aubertii — China Fleece-vine

A light but very vigorous and rapid grower, covered by a wealth of foamy sprays of small white flowers during the late Summer and early Fall.

2 year, No. 1	3.50	30.00
---------------------	------	-------

WISTARIA chinensis — Purple Chinese Wistaria

The plants we offer are all grafts from blooming wood of good flowering plants. This is quite a difference in the blooming ability of Wistaria plants, and grafted plants are best to plant where bloom is desired.

Grafted from blooming wood, 2 year No. 1	2.80	25.00
--	------	-------

sinensis alba — White Chinese Wistaria

Grafted from blooming wood, 2 year No. 1	3.00	
--	------	--

EVERGREENS

Prices quoted are for specimen plants that have been regularly transplanted and carefully grown and sheared, suitable for the best landscape work. Unless otherwise instructed, we dig all of our Evergreens B&B. We always dig fresh for each order.

Where customers wish to make special selection of Evergreens and mark trees in the nursery, we will be glad to reserve such trees for them, but an additional charge depending on value, usually between 10% and 20%, will be made. Where such selections are not for immediate shipment, a deposit of 25% of the order will be required to guarantee acceptance.

JUNIPERUS chinensis columnaris glauca — Blue Chinese Column Juniper 20 ft.

A tall columnar Juniper of rapid growth which will maintain its narrow compact shape with but little shearing. A very valuable plant for landscape plantings, as it grows very well in hot dry locations and is also immune to severe cold. The blue form has an attractive glaucous blue foliage.

	Each	Per 10	Per 100
2½ to 3 feet, B&B	\$ 2.00	\$ 18.00	\$
3 to 3½ feet, B&B	2.65	25.00	235.00
3½ to 4 feet, B&B	3.25	30.00	
4 to 4½ feet, B&B	3.75	35.00	
4½ to 5 feet, B&B	4.25	40.00	
5 to 6 feet, B&B	4.75	45.00	425.00
6 to 7 feet, B&B	5.50	52.50	

chinensis columnaris viridis — Green Chinese Column Juniper 20 ft.

Very similar to the Blue Chinese Column Juniper, but without the bluish cast to the foliage.

3 to 3½ feet, B&B	2.30	21.50	200.00
3½ to 4 feet, B&B	2.75	25.00	235.00
4 to 4½ feet, B&B	3.25	30.00	

chinensis Keteleeri — Keteleer Juniper 15-18 ft.

A splendid type of formal pyramidal outline, compact in growth and very bushy. The leaves are scale-like and very dark green in color.

2½ to 3 feet, B&B	2.00	18.50	
3 to 3½ feet, B&B	2.65	25.00	235.00
4 to 4½ feet, B&B	3.75	35.00	
4½ to 5 feet, B&B	4.25	40.00	
5 to 6 feet, B&B	4.75	45.00	

chinensis mas (mascula) 18-20 ft.

An especially attractive form of Juniperus chinensis, forming a broad densely conical tree with slender needle-like gray-green leaves and staminate flowers.

2½ to 3 feet, B&B	2.00	18.50	
3 to 3½ feet, B&B	2.65	25.00	235.00
3½ to 4 feet, B&B	3.25	30.00	275.00
4 to 5 feet, B&B	3.75	35.00	325.00
5 to 6 feet, B&B	4.50	42.50	

chinensis pfitzeriana — Pfitzer Juniper

The best of the low-growing Junipers. It is perfectly hardy, thrives in almost any location, transplants easily, and is easily the most popular Evergreen of its type. A wide-spreading or broadly pyramidal plant with dark green foliage that has a distinct grayish cast.

12 to 15 inch spread, B&B	1.15	10.00	
15 to 18 inch spread, B&B	1.50	13.00	115.00
18 to 24 inch spread, B&B	1.65	15.00	135.00
24 to 30 inch spread, B&B	2.30	21.50	200.00
30 to 36 inch spread, B&B	3.25	30.00	275.00

chinensis pfitzeriana — Special Compact Pfitzer Juniper

A very compact type of Pfitzer Juniper. A slower grower than the usual type, naturally remaining bushy and compact.

15 to 18 inch spread, B&B	1.55	14.00	125.00
18 to 24 inch spread, B&B	1.90	16.50	150.00

EVERGREENS — CONTINUED

JUNIPERUS chinensis sargentii — Sargent Juniper

A prostrate form with creeping stems and ascending branches, forming a close dense mat.

	Each	Per 10	Per 100
15 to 18 inch spread, B&B	1.65	15.00	
18 to 24 inch spread, B&B	2.00	18.00	175.00
24 to 30 inch spread, B&B	2.30	21.50	200.00
30 to 36 inch spread, B&B	2.75	25.00	

communis depressa plumosa — See Juniperus horizontalis plumosa

communis hibernica — Irish Juniper 10-12 ft.

A very narrow columnar tree with upright branches, giving a very formal effect. We have an exceptionally fine block this year. All of the trees have been grown single stem.

18 to 24 inches, B&B	1.00	8.50	70.00
3 to 3½ feet, B&B	1.75	16.00	
3½ to 4 feet, B&B	2.00	18.00	
4 to 4½ feet, B&B	2.40	22.00	200.00
4½ to 5 feet, B&B	2.75	26.00	

communis suecica — Swedish Juniper 10-12 ft.

A narrow columnar tree very similar to the Irish Juniper, but much hardier, somewhat broader in growth and of blue foliage.

18 to 24 inches, B&B	1.15	10.00	85.00
2 to 2½ feet, B&B	1.30	11.50	100.00
2½ to 3 feet, B&B	1.50	13.50	120.00

excelsa stricta — Spiny Greek Juniper 4-5 ft.

A slow-growing Evergreen with gray-green foliage that forms a compact well-shaped pyramid. Especially useful in formal plantings.

12 to 15 inches, B&B	1.15	10.00	85.00
18 to 24 inches, B&B	1.60	14.00	
2 to 2½ feet, B&B	1.75	16.00	
2½ to 3 feet, B&B	2.00	18.50	160.00
3 to 3½ feet, B&B	2.35	21.00	

horizontalis Douglasi — Waukegan Juniper

A trailing Juniper with long branches that make it a very satisfactory ground cover. Steely-blue foliage that turns an attractive purple in the Winter.

30 to 36 inch spread, B&B	1.90	17.50	
36 to 42 inch spread, B&B	2.15	20.00	

horizontalis glauca — Blue Creeping Juniper

42 to 48 inch spread, B&B	3.00	27.50	
48 to 54 inch spread, B&B	3.25	30.00	

horizontalis plumosa — Andorra Juniper

A low-spreading and very hardy Juniper of rapid growth, seldom reaching a height of more than 15 to 18 inches, but making a considerable spread. The foliage is unusually attractive in both form and color.

15 to 18 inch spread, B&B	1.30	11.50	100.00
18 to 24 inch spread, B&B	1.65	15.00	135.00

sabina — Savin Juniper 3-4 ft.

A very good dwarf form with dark green foliage and spreading ascending branches, forming an irregular vase-shaped bush.

24 to 30 inch spread, B&B	1.90	17.50	160.00
30 to 36 inch spread, B&B	2.30	21.50	200.00

sabina tamariscifolia — Tamarix Savin 1½-2 ft.

A low spreading form, very compact in growth, with soft textured silvery green foliage.

15 to 18 inch spread, B&B	1.75	16.00	
18 to 24 inch spread, B&B	2.00	18.00	
24 to 30 inch spread, B&B	2.25	20.00	

EVERGREENS — CONTINUED

JUNIPERUS sabina vonehron — Von Ehron Juniper

A form of *Juniperus sabina* of very rapid and somewhat open growth.

	Per 10	Per 100	Per 1000
15 to 18 inch spread, B&B95	8.00	
18 to 24 inch spread, B&B	1.15	10.00	

scopulorum Chandleri — Chandler's Silver Juniper 20-25 ft.

A selected form of the Colorado Juniper with frosty silvery-green whip-cord foliage of a striking color. An upright conical tree, the tips of the branches drooping.

3½ to 4 feet, B&B	2.60	24.00	
4 to 5 feet, B&B	3.25	30.00	275.00
5 to 6 feet, B&B	4.00	37.50	

squamata Meyeri — Meyer Juniper 3-4 ft.

A dwarf tree of irregular upright growth and numerous short straight branches. The leaves are broad, plump, and a bright bluish green in color. A very handsome plant on account of its dense growth and foliage color.

12 to 15 inches, B&B	1.40	12.50	
15 to 18 inches, B&B	1.80	16.50	150.00
18 to 24 inches, B&B	2.20	20.00	185.00

JUNIPERUS virginiana — Red Cedar 30-35 ft.

Platte River Type. We have several blocks of exceptionally nice plants that have been regularly sheared and are of excellent pyramidal form.

	Each	Per 10	Per 100
2 to 2½ feet, B&B	\$ 1.30	\$11.50	\$100.00
2½ to 3 feet, B&B	1.55	14.00	125.00
3 to 3½ feet, B&B	1.80	16.50	150.00
3½ to 4 feet, B&B	2.10	19.00	175.00
4 to 5 feet, B&B	2.75	25.00	225.00
5 to 6 feet, B&B	3.25	30.00	275.00

JUNIPERUS virginiana burki — Burke's Juniper 10-12 ft.

A dense narrow-columnar form of *Juniperus virginiana* with bright silvery blue foliage. The foliage is not quite as blue as that of *Juniperus virginiana glauca*, but the plant is a much better grower, being more erect and pyramidal.

	Each	Per 10	Per 100
3½ to 4 feet, B&B	3.50	32.50	
4 to 4½ feet, B&B	4.00	37.50	
4½ to 5 feet, B&B	4.50	42.50	

virginiana cannarti — Cannart Red Cedar 12-15 ft.

Probably the best of the many forms of *Juniperus virginiana*. A dense-growing symmetrical pyramid with heavy dark rich green foliage.

The trees offered here are well filled and compact, but are narrow for the height.

2½ to 3 feet, B&B, slender	2.50	23.00	
3 to 3½ feet, B&B, slender	3.25	30.00	
3½ to 4 feet, B&B, slender	3.75	35.00

6 to 7 feet, B&B, slender	6.00	57.50	

virginiana elegantissima — Goldtip Red Cedar 12-15 ft.

Often called Lee's Golden Juniper. A striking plant with bronze-green foliage, accented by the golden-yellow tips of the branches. Naturally a low spreading grower, but if staked when young develops a dense broadly pyramidal tree.

2½ to 3 feet, B&B, staked	2.75	25.00	
---------------------------------	------	-------	--

EVERGREENS — CONTINUED

JUNIPERUS virginiana glauca — Silver Red Cedar 15-18 ft.

A narrow columnar tree. The young growth is silvery-blue, changing to a beautiful bluish-green as the foliage matures.

	Each	Per 10	Per 100
2½ to 3 feet, B&B	2.50	22.50	
3 to 3½ feet, B&B	3.00	27.50

4 to 4½ feet, B&B	4.00	37.50	

virginiana globosa

A dwarf compact form of Red Cedar which naturally grows in globe form.

12 x 12 inches, B&B	1.40	12.50	
15 x 15 inches, B&B	1.65	15.00	
18 x 18 inches, B&B	1.90	17.50	

virginiana hilli — Hill Dundee Juniper 12-15 ft.

An upright compact symmetrical pyramid with rich green foliage that turns to an attractive plum-green during the winter.

2½ to 3 feet, B&B	1.80	16.50	150.00
3 to 3½ feet, B&B	2.75	25.00	225.00
3½ to 4 feet, B&B	3.25	30.00	275.00
4 to 5 feet, B&B	4.00	37.50	

virginiana schottii — Schott Red Cedar 12-15 ft.

A compact pyramidal form, very similar to the Cannart Red Cedar, but with lighter yellowish-green foliage and ascending branches.

3 to 3½ feet, B&B	2.75	26.00	
3½ to 4 feet, B&B	3.25	30.00	
4 to 4½ feet, B&B	3.75	35.00	
4½ to 5 feet, B&B	4.25	40.00	
5 to 6 feet, B&B	5.00	47.50	450.00
6 to 7 feet, B&B	6.00	57.50	
8 to 10 feet, B&B	8.00	75.00	

PICEA canadensis albertiana — Black Hills Spruce—see *Picea glauca densata***excelsa** — Norway Spruce 80-90 ft.

The best known of all of the Spruces; a symmetrical well formed pyramid with graceful drooping branches. One of the best evergreen trees for screen or windbreak plantings.

18 to 24 inches, B&B	1.15	10.00	90.00
2 to 3 feet, B&B	1.40	12.50	110.00

excelsa nidiformis — Nest-shaped Spruce

A very dwarf and extremely dense form of the Norway Spruce, usually growing wider than tall. A very slow grower.

10 x 10 inches, B&B	1.15	10.00	
12 x 12 inches, B&B	1.40	12.50	

glauca densata — Black Hills Spruce 50-60 ft.

One of the best and most popular of the Spruces. A compact symmetrical upright grower, the slowest growing and most compact of all of the tall Spruces. Also the most hardy of the Spruces, withstanding both heat and drought as well as cold better than most other varieties.

2½ to 3 feet, B&B	2.40	22.00	
3 to 3½ feet, B&B	2.75	25.00	225.00
3½ to 4 feet, B&B	3.10	28.50	260.00
4 to 5 feet, B&B	3.50	32.50	

PINUS mugho mughus — Mugo or Dwarf Mountain Pine

The true dwarf type; many-stemmed, bushy and compact,

12 to 15 inch spread, B&B	1.65	15.00	135.00
15 to 18 inch spread, B&B	2.10	19.00	175.00
18 to 24 inch spread, B&B	2.50	23.50	

EVERGREENS — CONTINUED

PINUS nigra — Austrian Pine 60-70 ft.

A handsome tree of broadly pyramidal growth, best of the ornamental Pines for this area. Deep rich green foliage.

	Per 10	Per 100	Per 1000
18 to 24 inches, B&B	1.30	11.50	100.00
2 to 3 feet, B&B	1.70	15.50	140.00

TAXUS cuspidata — Spreading Japanese Yew 10-12 ft.

A spreading bush with horizontal somewhat ascending branches. Very hardy and does well in shaded places, especially good for foundation plantings.

15 to 18 inch spread, B&B	2.85	26.00	235.00
18 to 24 inch spread, B&B	3.50	32.50	

media Hicksii — Hick's Yew 15-18 ft.

A very attractive form with numerous ascending branches and rich dark glossy green foliage. Usually grown as a narrow columnar tree for accent purposes.

18 to 24 inches, B&B, narrow	2.15	20.00	
2 to 2½ feet, B&B, narrow	3.00	27.50	
2½ to 3 feet, B&B, narrow	3.75	35.00	
3 to 3½ feet, B&B, narrow	4.25	40.00	

THUYA occidentalis — American Arborvitae 20-30 ft.

A very good compact dark green type.

18 to 24 inches, B&B	1.05	9.00	80.00
2 to 3 feet, B&B	1.25	11.00	100.00

occidentalis pyramidalis — Pyramidal Arborvitae 15-20 ft.

The most popular of the Arborvitae types, with deep green foliage that holds its color well thru the Winter.

A narrow columnar pyramid, splendid for accents in formal plantings.

18 to 24 inches, B&B	1.20	10.50	90.00
2 to 2½ feet, B&B	1.50	13.50	120.00
2½ to 3 feet, B&B	1.80	16.50	150.00
3 to 3½ feet, B&B	2.15	20.00	185.00
3½ to 4 feet, B&B	2.75	25.00	225.00

PEONIES

The Peonies listed below are in storage, where they are ready for early Spring shipment, or can be held in a good dormant condition much later in the Spring than plants which must come from the field.

Most of these varieties are offered this Spring at much lower prices than we have ever listed before.

For a complete list of the varieties of Peonies that we have to offer, please refer to our special Peony list for the Fall of 1942, a copy of which will be sent on request. Peonies have been a specialty with us for many years and we are growing a very comprehensive list of varieties.

Figures following the name of the variety show ratings according to the classification of the American Peony Society.

GRADE:—All of the plants offered are strong divisions of two and three year old clumps carrying from 3 to 5 eyes; well rooted, well balanced, and well developed plants. All have been grown for plants only—we do not offer divisions of old cut-flower plants.

PEONIES TO COLOR

	Per 10	Per 100	Per 1000
Double Pink	\$ 1.10	\$ 8.50	\$ 75.00
Double Red	1.25	10.00	90.00
Double White	1.20	9.50	85.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

EARLY WHITE PEONIES

	Per 10	Per 100
Mme. de Verneville (7.9) — Blush white; a profuse and reliable bloomer; good commercial cut-flower	\$ 1.30	\$ 10.00
Queen Victoria (7.2) — Milk white, very early, a very profuse bloomer; best cut-flower Peony for storage	1.20	9.00

MIDSEASON WHITE PEONIES

Jessie Shaylor (8.6) — Delicate blush white shaded cream	2.50	20.00
Jubilee (8.9) — Flesh-white; enormous lacy and rather flat flower..	1.70	14.00
La Tenderesse (8.1) — Flesh white, pond-lily type	1.30	10.00
Mrs. Edward Harding (9.3) — A very handsome pure white	2.00	18.00
W. F. Christman (8.8) — Fine blush white, very free-flowering	1.50	12.00

LATE WHITE PEONIES

Alsace-Lorraine (8.8) — Very floriferous, pale waxy white	1.50	12.00
Elizabeth B. Browning (9.2) — Pure white, fragrant	2.50	20.00
Marie Lemoine (8.5) — Pure white	1.50	12.00
Solange (9.27) — Very popular, creamy white suffused buff	2.50	20.00

EARLY PINK PEONIES

Edulis Superba (7.6) — Clear deep bright-rose pink. Extremely early, very floriferous, a very desirable cut-flower variety	1.20	9.00
Floral Treasure (Delicatissima) (7.5) — Clear even pale-lilac-rose. Very free flowering	1.20	9.00
Octavie Demay (8.5) — Large flat blooms, pale old-rose-pink	1.30	10.00
Philomele (7.7) — Bright rose-pink; amber yellow and rose	1.30	10.00

MID-SEASON PINK PEONIES

Ginette (8.6) — Pale pink shaded rose, dwarf	1.30	10.00
James R. Mann (8.7) — Dark rose-pink, very free flowering	1.70	14.00
Lady Alexandra Duff (9.1) — Immense flowers, pale blush-pink	1.80	15.00
Lillian Gumm (8.95) — An outstanding variety; deep rose pink	2.00	17.00
Mabel L. Franklin (9.0) — Brilliant rose-pink shaded salmon	1.50	12.00
Marie Crousse (8.9) — Very floriferous; shell pink shaded rose	1.30	10.00
Mary W. Shayler (9.0) — Very floriferous; pale flesh-pink	1.70	14.00
Mme. Geissler (7.9) — Glossy old-rose-pink	1.20	9.00
Phyllis Kelway (9.0) — Rose-pink, large and fragrant	2.00	17.00
Tourangelle (9.4) — Apple blossom pink shaded salmon	1.80	15.00
Walter Faxon (9.3) — One of the best bright pinks	3.00	25.00

LATE PINK PEONIES

Albert Crousse (8.6) — Tall, profuse bloomer, salmon pink	1.30	10.00
Gigantea (8.2) — Clear rose-pink fading old-rose	1.50	12.00
Grandiflora (Richardson's) (8.8) — Silvery pink	1.30	10.00
Henry Avery (8.8) — Light pink, creamy yellow collar	1.70	14.00
Jeannot (9.2) — Extra fine, very large, pale rose-pink	1.50	12.00
Loveliness (8.8) — Very free-flowering, hydrangea-pink	1.50	12.00
Mme. Boulanger (7.9) — Glossy cameo pink	1.30	10.00
Phoebe Cary (8.8) — Very tall, very late, pale old-rose-pink	1.70	14.00
Raoul Dessert (9.0) — Free-flowering, brilliant shell-pink	2.00	17.00
Rosa Bonheur (9.0) — A highly praised variety, old-rose-pink	1.50	12.00

MID-SEASON RED PEONIES

Auguste Dessert (8.7) — An unusual and vivid light red	1.50	12.00
Felix Crousse (8.4) — Large globular blooms of brilliant ruby red	2.00	17.00
Grace Ott (8.56) — A compact dark crimson flower	3.00	
Pres. Roosevelt (7.7) — Free-flowering, brilliant red	1.50	12.00
Victorie de la Marne (8.2) — Intense purplish red	1.80	15.00

EARLY FLOWERING PEONIES

Anomola (Smouthii) — Single, purplish red, cut-leaved	2.00	
Jewell (8.76) — Officinalis hybrid, single, dark red	10.00	
Officinalis Rosea Plena — Double light rose-pink	2.50	22.00

ROSES

We have a fine lot of well matured and carefully graded Oregon grown Roses to offer this Spring—the best that can be obtained. All of the plants are low-budded on Multiflora Japonica with the exception of the few varieties of Climbing Roses that are specified as on their own roots.

Source of Roses Important:—The Middle West, with its hot dry summers, is a hard climate in which to flower Roses and the source of planting stock has been found to be almost as important an item in successful Rose growing here as is the selection of varieties. For a number of years we have been using these Oregon grown Roses and have found that they have given better results than those we have had from any other source. They are sturdy, well rooted and well matured plants, without any coarse overgrowth. They are somewhat more expensive than southern grown Roses, but are well worth the difference in price. We do not offer any southern grown Roses.

Many of the varieties of Hybrid Tea Roses are not adapted to the hot dry summers of this section of the country, and in offering this selection we have attempted to confine ourselves to varieties of merit particularly selected for vigorous growth and free blooming characteristics under the usual weather conditions in the Middle West.

TEA and HYBRID TEA ROSES

2 Year No. 1 Buds — All Northern Grown

	Per 10	Per 100
Ani Quinard—a vigorous grower with dark blackish-garnet buds opening dark velvety crimson, very fragrant	\$ 3.30	\$ 30.00
Betty Uprichard—salmon pink, stained coppery red on the outside of the petals, very fragrant; buds copper red	3.30	30.00
Caledonia—long-pointed buds opening to large, very double, and long-lasting pure white flowers	3.30	30.00
Christopher Stone—a finely formed and very fragrant rose with bright scarlet flowers. Dark green disease resistant foliage.....	3.75	34.00
Condesa de Sastago—a very free-flowering two-toned rose of strong bushy growth. The flowers are fragrant and very double, golden yellow without, deep coppery pink within.....	3.30	30.00
Dame Edith Helen—one of the largest and most perfectly shaped of the Hybrid Teas; bright glowing pink, very fragrant; one of the best out-door roses for this section	3.30	30.00
Duquesa de Penaranda—a strong vigorous variety, very free-flow- ering; apricot orange to dark pink	3.30	30.00
Editor McFarland—clear brilliant pink on long strong stems; long-pointed buds	3.30	30.00
Edith Nellie Perkins—long-pointed buds; rich orange-pink outside, salmon pink inside of petals	3.30	30.00
E. G. Hill—large, massive, and very fragrant blooms of deep vel- vety maroon	3.30	30.00
Etoile de Hollande—the finest dark red rose for this section; a strong grower and free bloomer, very fragrant	3.30	30.00
Glowing Carmine—a tall vigorous grower and continuous bloomer with long-lasting and fragrant deep carmine blooms.....	3.30	30.00
Golden Pernet (Mons. Julien Potin)—finely formed pointed buds; deep golden yellow, a much richer color than the original Pernet, which it holds without fading	3.75	34.00
Grenoble—a tall vigorous grower with long-stemmed scarlet-red flowers that do not fade. One of the better reds for this area...	3.30	30.00
Gruss an Teplitz—the hardiest of the Hybrid Tea Roses, a very free and continuous bloomer, deep scarlet-crimson	3.30	30.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

HYBRID TEA ROSES — CONTINUED

	Per 10	Per 100
Hinrich Gaede —a distinct, vigorous and very fragrant rose with long-pointed nasturtium-red buds opening bright vermillion suffused gold	3.30	30.00
Joanna Hill —very double bloom, the center is indian yellow, surrounded by petals of a golden-buff shade	3.30	30.00
Julien Potin —See Golden Pernet		
Kaiserin Auguste Viktoria — free-flowering, very double, pure white, the standard pure white bedding rose	3.30	30.00
McGredy's Ivory —a vigorous disease-resistant plant. Very large long-pointed buds and perfectly shaped creamy white flowers that shade toward yellow at the base of the petals	3.75	34.00
McGredy's Yellow —a large vigorous free-blooming rose; pure light buttercup-yellow	3.75	34.00
Mme. Edouard Herriott —a very brilliant coral-red, shaded orange and scarlet	3.30	30.00
Mme. Joseph Perraud —long, slender, pointed, fragrant buds; blooms orange buff shading to deep pink at the petal margins, a really superior rose	3.75	34.00
Mme. Jules Bouche —a medium sized but superb white with a tinge of blush pink at the center	3.30	30.00
Mrs. Charles Bell —soft salmon pink, very sweetly perfumed. One of the best of the Radiance type	3.30	30.00
Mrs. Erskine Pembroke Thom —canary yellow; long buds and large well-shaped flowers; vigorous and free flowering.....	3.30	30.00
Mrs. Henry Bowles —clear rose-pink shaded salmon, vigorous and free flowering	3.30	30.00
Mrs. Pierre S. DuPont —reddish gold in bud, opening to a deep yellow. A strong vigorous grower and profuse bloomer.....	3.30	30.00
Mrs. Sam McGredy —a very fine tri-color with long-pointed buds and large scarlet-copper-orange flowers that are flushed with red on the outside of the petals. A vigorous disease resistant plant and a prolific bloomer	3.75	34.00
Picture —a strong vigorous rose of exceptionally fine form; velvety rose-pink with undertones of salmon	3.75	34.00
President Herbert Hoover —one of the most popular Hybrid Teas for this area. A glorious rose with long-pointed buds and large full flowers, very fragrant; an unusual combination of orange, gold, and maroon	3.30	30.00
Radiance —large, brilliant rose-pink. The Radiance type is one of the best for this section of the country, as it will continue to produce flowers during the most unfavorable hot weather. Strong upright grower, free bloomer	3.30	30.00
Red Radiance —a free-blooming bright rosy-red counterpart of Radiance, of sturdy growth and delightful fragrance	3.30	30.00
Sister Therese (Soeur Therese) —a vigorous, free-blooming, and very dependable yellow, with long-pointed buds and full double blooms	3.30	30.00
Southport —full-double cupped flowers, long-lasting and very fragrant; a very brilliant and unfading scarlet	3.30	30.00
Talisman —long-pointed orange-red buds; the blooms are golden yellow suffused with apricot and coppery red	3.30	30.00

HYBRID PERPETUAL ROSES

2 Year No. 1 Buds — All Northern Grown

	Per 10	Per 100
American Beauty—a well known and very popular variety, fragrant, brilliant light crimson	3.30	30.00
Frau Karl Druschki (Snow Queen)—the best pure white rose.....	3.30	30.00
General Jacqueminot—clear bright crimson, a very free bloomer, an old garden favorite	3.30	30.00
Paul Neyron—bright deep pink, a fine variety and one of the largest of all Hybrid Roses	3.30	30.00
Ulrich Brunner—rich cherry red, a strong vigorous grower.....	3.30	30.00

CLIMBING AND RAMBLER ROSES

2 Year No. 1 — Buds Except Where Marked (OR)

With the exception of the Rambler types (Crimson Rambler, Dorothy Perkins, and Excelsa) which are on their own roots, the Climbing Roses offered here are all budded on Multiflora Japonica.

	Per 10	Per 100
Climbing American Beauty—vigorous, hardy, free-flowering; the blooms are large, very double, and bright crimson	\$ 2.60	\$ 22.50
Crimson Rambler (OR)—small ruffled bright scarlet double flowers in clusters	2.10	18.00
Dorothy Perkins (OR)—soft shell pink, small double flowers in clusters	2.00	16.00
Dr. Van Fleet—rich shell pink, pointed buds, large semi-double flowers	2.60	22.50
Excelsa (Red Dorothy Perkins) (OR)—intense scarlet, large clusters of small flowers, probably the best of the red Ramblers.....	2.00	16.00
Gardenia—a rich creamy yellow Rambler	2.30	
Paul's Scarlet Climber—large well-shaped semi-double flowers in clusters, a vivid scarlet that fades but little, the most popular Climbing Rose	2.60	22.50
Silver Moon—long creamy-white buds, flowers very large, semi-double, silvery white showing yellow stamens	2.60	22.50

HYBRID RUGOSA ROSES

2 Year No. 1 Buds — All Northern Grown

	Per 10	Per 100
Agnes—a fine amber-yellow Rugosa, free-flowering and fragrant; a new color in Rugosas	\$ 2.60	\$ 22.50
Amelie Gravereaux—very deep crimson, double; very strong grower; one of the best of the Rugosas	2.60	22.50
F. J. Grootendorst—small double brilliant crimson flowers in clusters; a very fine bedding rose that blooms from May until November	2.60	22.50
